**TRUENORTH**

*"We experience digital photos like a dream. Just as a dream vanishes when we wake up, a digital photo vanishes as we scroll past it or close the file. But as a print, your photograph becomes part of the real world and a part of your life.*

*Unlike the fleeting excitement that digital photos bring as we scroll past them, the inspiration of a printed photograph is always there to view.*

*When printed, our photographs are ever-present reminders of what is important in life."*

## INTRODUCTION

How many photographs do you have on your smart phone? What about your hard drive or computer? Hundreds? Thousands? More?

Now, how many do you look at on a daily basis? I mean really look at, taking a moment to remember when they were taken & how you felt at the time. Or remember how cute the kids were when they were young?

## LIFESTYLE PORTRAIT COLLECTIONS

Perhaps studio portraits aren't what you and your family are looking for. Maybe you want to capture the family dynamic in a more relaxed and natural environment.

Lifestyle or Family Portraits can be almost anything you want them to be. From a lazy Sunday in your pyjamas playing computer games, to a family walk along the beach with the dog. Nothing (well, almost nothing) is off limits.

The Lifestyle or Family Portrait package is where I come to you. Either to your home, or somewhere outdoors and we spend a couple of hours taking beautiful, natural photographs. It's really important to me to capture the essence, spirit & dynamic of the couples, families, children, friends or pets in the portraits. That's why I like to allow around two hours for the shoot. That way, there's plenty of time to get to know each other and get some really fantastic shots.

## THE REVEAL BOX

The Reveal box is a cleverly designed frame / storage box, that will hold up to 30 printed & mounted images. The lid of the box is transparent, so that when you stand it up, the front image is displayed as though it were framed. All in a perfect size to stand on a shelf.

Each box is hand-made in Italy by Graphi Studio and has many options of finishing, including Cloud Leatherette, Eco Leather Deluxe (white or black), new Linen Fabric, Leather and Distressed Leather.

The boxes can be added to at any point, so there's no need to fill it straight away. They are a fantastic way to add a few images every year, displaying your favourite & changing the display whenever you feel like it.

The Reveal Boxes are a bespoke item and can be added to any Portrait Collection for £300

## ABOUT OUR PRINTS

When it came to choosing a printer for our work, there was really only ever one choice. Graphi Studio in Italy is the market leader in Fine Art quality exhibition printing & mounting. Every piece of work is printed and mounted by hand on the finest quality archival paper & designed to last several lifetimes.

Graphi Studio prints have been the pinnacle of photographic printing for decades now. Certainly as long as I've been in photography. It makes me incredibly proud to see my work printed by them & I love being able to offer the best to my clients.

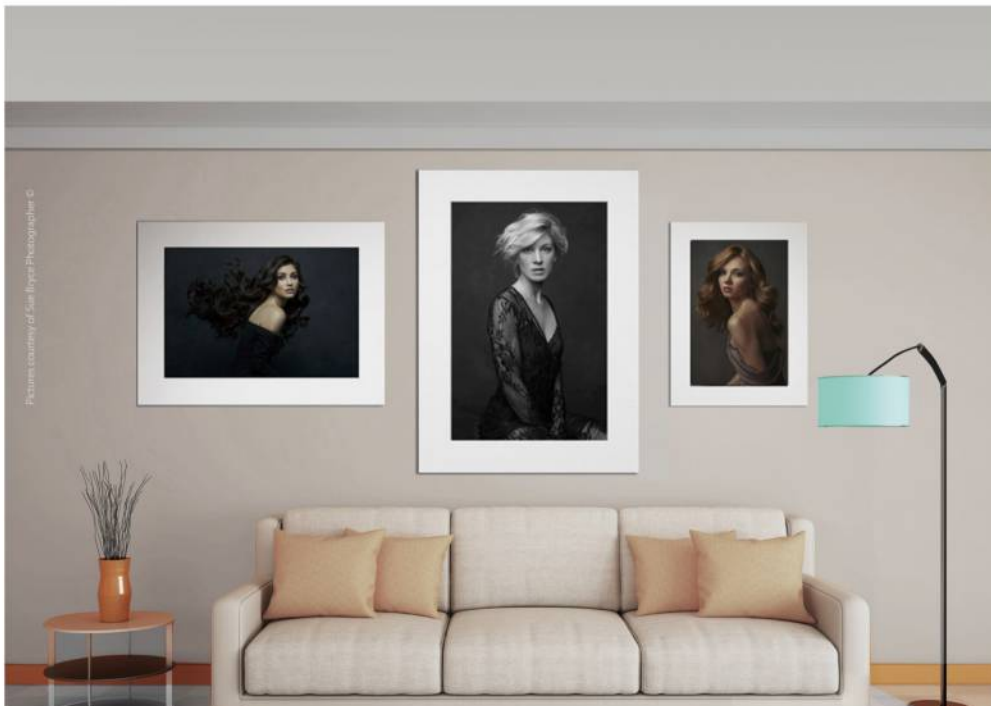

## WALL ART

Our Wall Art stands out. These are not 'high street' canvas prints.

True North Wall Art collections are carefully chosen from Graphi Studio's extensive range to represent the best in quality and value. Each piece is designed to show the photograph off to its absolute best and to be the focal point of a room. All three options look absolutely stunning and are made to last several lifetimes

These are pieces of art.

## ENLARGEMENTS

All of our printed products are designed to be looked at, every day. An enlargement of your favourite image from a portrait session is so much more than just a photograph.

It's a memory of a moment in time, saved forever. It's a statement of what's important in life.

It's the focal point of which ever room you hang it in & a statement.

All of our Photographic Prints are hand printed and mounted in Italy by Graphi Studio.

# CANVAS WRAP

True North Canvas Wraps are the evolution of the classic photographic display. Traditionally, canvasses were made on a thin frame that warped and bent over over a few years. Our Canvas Wraps are hand made in Italy by Graphi Studio and feature the canvas being stretched over a rigid, boxed body. It's the only way to ensure that it'll last, it's almost a shame to hang it on the wall and hide all of that 'behind the scenes' work that goes into it.

Canvas Wraps are available in 3cm and 6cm depths and are printed onto the finest quality matte linen.

# CANVAS PRO

The Canvas Pro is the professional choice for wall art. Vibrant colors on cotton canvas for an artistic feel, mounted with millimetric precision and sharp wrap corners. They are a superior quality canvas, mounted on a rigid box element that will never collapse, or allow the canvas to loosen and bulge like other panels available on the market.

Like all of our printed products, they are hand made in Italy and come in a choice of 3 or 6 cm depth.

When a piece of Wall Art looks this good, you'd want it to fit the rest of the room, right? That's why the Canvas Pro rigid box section comes in over 30 choices of finish. You just need to tell us your favourite when you order

# ACRYLIC PRO

With its clean and elegant lines, the Acrylic Pro is the combination of top quality materials and state-of-the-art printing that photography has been waiting for.

It's similar in construction to the Canvas Pro, but the final image is encased in an 1/8" thick Acrylic layer that really brings out the punch of the colour. The Acrylic layer is available in either a glossy, or a matte, anti-glare finish.

Like all of our printed products, they are hand made in Italy and come in a choice of 3 or 6 cm depth.

# ENLARGEMENTS

The classic way to view a beautiful photograph and still my own personal favourite. All of our enlargements are hand printed on the finest quality, gallery & exhibition grade paper and then mounted by hand. They are designed to be heirloom pieces and handed down from generation to generation.

We can arrange framing once the mounted print arrives with us. We use the excellent services of the Pomfret Gallery in Pontefract. You're welcome to source your own frame too. Framing is a bespoke service that we provide.

These large mounts are archival certified, meaning that both the frame and the back panel are made of pure cotton paper, thickness 1/8" each, 1/4" combined (3mm each 6mm combined). The state of the art cutting plotter ensures perfection of the bevel cut (45°). Precise mounting procedures make the Mega Mats the most beautiful gallery large print available on the market.
